

## What is the Timmy and Cindy Project?

The Timmy and Cindy Project is a public arts initiative that utilizes bronze castings of an active young boy and girl. The castings are placed at strategic locations throughout the community on public property.

Purchase of the castings is funded by individuals, families, or organizations. Each casting bears a small plaque with the donor's name. Site selection is made by city staff and the statue donor. Labor to set the statues is provided by city staff.

The program began in the spring of 2004 with 14 castings placed at 14 different sites. At this time, there are 35 castings throughout the city.

*The aim of every artist is to arrest motion, which is life, by artificial means and hold it fixed so that a hundred years later, when a stranger looks at it, it moves again since it is life.*

*--William Faulkner*
